RE: IDHW/DEQ CONCURRENCE WITH *DRAFT FINAL SCOPE OF WORK, WASTE AREA GROUP 3 COMPREHENSIVE REMEDIAL INVESTIGATION/FEASIBILITY STUDY*

Dear Ms. Green:

The Idaho Department of Health and Welfare, Division of Environmental Quality (IDHW/DEQ) has reviewed the *Draft Final Scope of Work, Waste Area Group 3 Comprehensive Remedial Investigation/Feasibility Study*, dated September 16, 1994. The document was received by IDHW/DEQ on September 23, 1994 for a 15-day review and has satisfactorily addressed IDHW/DEQ comments on the *Draft Scope of Work, Waste Area Group 3 Comprehensive Remedial Investigation/Feasibility Study*, dated June 22, 1994. Therefore, IDHW/DEQ is in concurrence with the scope of work described by the document.

IDHW/DEQ does wish to clarify that Tables 1 and 2 may be subject to change pending the outcome of the Remedial Project Manager's Action Determinations. Tables 1 and 2 depict the status and/or preliminary DOE recommendations for all of the Waste Area Group 3 Operable Units. However, IDHW/DEQ and USEPA have not yet concurred on the final status on many of these sites. Should IDHW/DEQ or USEPA fail to concur with any of the preliminary recommendations by DOE, Tables 1 and 2 may require modification. Please contact us at (208) 528-2651 if you should have any questions.

Sincerely,

Scott L. Reno  
Environmental Scientist  
Remediation Bureau
